EXPERIENCE

Razorpay — Senior Frontend Engineer

Feb 2022 - present

Razorpay is a payments solution in India that allows businesses to accept, process and disburse payments with its product suite. I work at a new initiative within Razorpay which is known as [Rize](#) (India's best startup program), and I am helping build a seamless experience for our users from the ground up. Currently managing a small team of 2 engineers for fulfilling end-to-end engineering requirements. My role here also involves being in frequent contact with designers and giving approval from the engineering side.

CODEDAMN Pvt. Ltd. — Full-stack Developer

Mar 2021 - Feb 2022

Built the next-gen ed-tech platform for a growing audience of 60,000+ students. Frequently perform code reviews and maintain code quality. I also worked on some DevOps using GitHub actions and a bit of AWS.

COOX Online Pvt. Ltd. — Founding Engineer

Sep 2019 - Mar 2021

Built quality software for the upcoming food-tech startup, led a team of 3 engineers and led the development of 3 core software products.

VoerEir India Pvt. Ltd. — Software Development Intern

Jun 2019 - Aug 2019

Worked on a Management Portal application using Python, Flask, SQLAlchemy
